General Description of the Facility:

(For example: landfill, surface impoundment, pile, container;
types of hazardous substances; location of the facility;
contamination route of major concern; types of information
needed for rating; agency action, etc.)

Unlined creek bed - the surrounding area had several
landfills operating in the creek's vicinity since 1937 to
the 1960's. Site is surrounded on the north by several
large companies which have been operating since the 1900's.
